<p>School community beliefs regarding the importance of attending school</p>	<p>At <i>Alexandra Hills State School</i> we acknowledge the importance of all students, staff, parents and caregivers sharing a clear and common understanding of how vital attending school everyday is for every student.</p> <p><i>Alexandra Hills State School:</i></p> <ul style="list-style-type: none"> • is committed to promoting the key messages of <i>Every Day Counts</i> • believes all children should be enrolled at school and attend school all day, every school day • monitors, communicates and implements strategies to improve regular school attendance • believes that it is a parent's and caregivers responsibility to ensure that their child attends school on every school day for the educational program in which he/she is enrolled. • recognises that a parent of a young person in the compulsory participation phase is obliged to ensure their child is participating full-time in an approved education or training option. • Insists that at any time a student is not attending or participating in their educational program it is considered an absence and must be explained. • believes truancing can place a student in unsafe situations and impact on their future employability and life choices • believes attendance at school is the responsibility of everyone in the community.

Every Day Counts is a DET state-wide initiative addressing the issue of student attendance at school. The initiative is designed to assist in ensuring a positive and committed attitude by parents, community and students towards consistent, full time school attendance. It requires the support of all parties within the school community to successfully manage student attendance.

Everyday Counts

Every Day Counts promotes four key messages;

- all children should be enrolled at school and attend on every school day
- schools should monitor, communicate and implement strategies to improve regular school attendance
- truancing can place a student in unsafe situations and impact on their future employability and life choices
- attendance at school is the responsibility of everyone in the community. While most students attend school consistently, there is a small number of students who are absent from school without an acceptable reason and this may harm their education.
